LEADING THE WAY

R.G. Anderson Company (RGA) has been providing professional construction services since 1989. Quality construction, a commitment to providing outstanding service, and high performance standards have allowed the firm to become one of Middle Tennessee's most respected and reputable construction firms.

We are local. Our work is primarily in Middle Tennessee and Southern Kentucky. We perform both private negotiated work and public sector bid jobs. Our knowledgeable team of Preconstruction Managers and Estimators guide our clients with reliable, current cost information and can provide informed cost forecasts that are specific to the Nashville and Middle Tennessee area.

RGA offers a wide range of services including but not limited to: General Contracting, Construction Management, and Design-Build services. We demonstrate our commitment to our Clients by providing responsive and dedicated professionals who have the expertise and experience to anticipate and meet all of a project's requirements, while keeping the Client's best interest in mind.

RGA believes in the "team approach" to construction, where the Owner, the Architect & Design Team, and the Contractor work together on a project from conception to completion in order to provide the optimum result: a quality project, completed at the earliest time, and at the best price.

At RGA, we believe that our most important asset is our reputation. We have had the honor of providing construction services for a diverse client-base over our more than two decade company history, and we are proud to share with all of our clients an exemplary track record of achievement. A successful resume of experience accompanied by a reputation of quality service demonstrates RGA's high standards of excellence in the construction services industry.

We have developed an expertise in the local costs of our area and have built invaluable relationships with Nashville's local subcontractor workforce.

LEADERSHIP

BOB ANDERSON, CHAIRMAN

Robert G. "Bob" Anderson serves as Chairman of the R.G. Anderson Company, Inc. and in this role is responsible for providing overall direction for the firm.

A Nashville native with over forty years of experience, he possesses extensive expertise in all types of construction. Bob's leadership skills in project planning and project management position him as a genuine asset to the clients he serves and the teams of professionals with which he works.

After completing his Bachelor of Engineering degree at Vanderbilt University, Anderson joined Rogers Construction Company in 1969. He progressed through the ranks from engineer trainee, project coordinator, project manager, division manager, vice president, and group vice president to ultimately be named president in 1981. He went on to start RGA in 1989.

In addition to his work at RGA, Anderson is a charter member of the *Construction Manager's Association of America*, a former Board of Directors member and served as president for both the local chapter of *Associated Builders and Contractors* (ABC) and the Middle Tennessee branch of *Associated General Contractors* (AGC) of America. Anderson was recently named to the *The Academy of Distinguished Alumni of Vanderbilt School of Engineering*.

CRAIG JOHNSON, PRESIDENT

Craig serves as President and Chief Operating Officer for the R.G. Anderson Company, Inc.

In this role he is responsible for the firm's overall operations and for monitoring the statuses of all projects, including cost control, conformance to the schedule, quality control, and safety. Craig also serves as the liaison between the Owner, the Architect, and the Construction Team.

Craig has considerable experience in conceptual estimating on "design-build", negotiated, and hard-bid projects. He has built hundreds of projects over his thirty years in the construction services industry, including high-rise office buildings, healthcare facilities, educational facilities, industrial facilities, as well as multi-family housing facilities.

Craig has been with RGA since its founding in 1989. He has served in his present capacity, as the company's president, since 2001. Craig earned his Bachelor of Science Degree in Construction Engineering from Iowa State University.

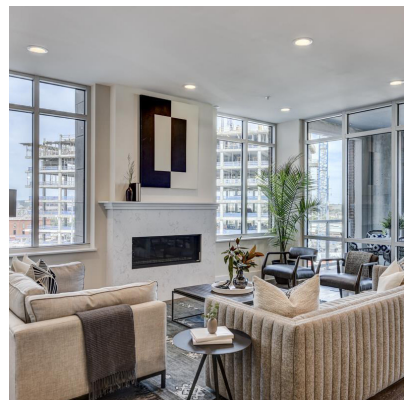

Johnson is a former Board of Directors member for the *Associated General Contractors of TN* (AGC) Middle TN branch, a member of the *AGC State of TN Board of Directors*, a member of the *U.S. Green Building Council* (USGBC), and a former Board of Directors member for the *Associated Builders & Contractors* (ABC) Mid-TN Chapter.
